

GRANT WRITER

Securing grant funds is necessary for many aspects of our organization. A grant writer would help us finance our mission of providing trail access and promoting trail use for adventure health, stewardship, education and community prosperity. Funding is out there! Help secure it and put grants to work for our community. To accomplish this objective, the *Grant Writer* will:

- find grant fund opportunities that match our needs
- write content for the grant application
- perform field work to support the grant process
- work with the leadership team to bundle a grant proposal
- obtain support letters
