

MAP SALES

Did you know that *Mariposa Trails* created a local trail map of the region between the town of Mariposa and Yosemite National Park? It's a one-of-a-kind map that reveals many recreational trails and roads within the Sierra National Forest, the Mother Lode District of the Bureau of Land Management and trails that enter/exit the southwest boundary of Yosemite National Park. It's currently available for sale on our website and many outlets in Mariposa.

Help us distribute and sell this map.
