

## TRAIL SCOUT

Pick a hiking, biking or equestrian trail and periodically scout it to identify trail maintenance and improvement needs. Your report will allow “Mariposa Trails” to plan trail-tending work, and to share this information with other trail users via our online trail map. To accomplish this objective, the *Trail Scout* will:

- identify notable hazards and conditions along trails maintained by Mariposa Trails
- report findings to the leadership team
- collect trash along the trail as necessary
- log volunteer hours
- have the opportunity to meet and talk with trail-users (though this is not required)
