

TRAIL AMBASSADOR

Trails provide a magical community where we experience the wonders of nature together. We build trails in order to enable this community experience. Trail Ambassadors are present on the trail to nurture this growth of community.

NURTURING ACTIVITIES:

- provide directions, information about the trail, permit requirements, preparedness, and trail conditions
- share their knowledge about the plants, animals, geology and history of the area
- note trail-user experiences and concerns
- collect trash along the trail as necessary
- share *Leave No Trace* practices
- perform light trail maintenance
- introduce trail-users to ***Mariposa Trails***
