

TRAIL STEWARD

Give back to the lands you love by helping to restore and maintain our local trails using hand tools and chainsaws. Our trail season starts in October and ends in April-- when the soil is soft, the air is cool and the bugs are few. Sure, it's tough work, but the dividends are many: comradery, to meet old and make new friends, to give back, to affect positive change and to enjoy the outdoors. *Mariposa Trails* supplies the tools, personal protective equipment and a trail project.

SAMPLE ACTIVITIES

- a hike to and from the worksite, which can range from 1 to 8 miles
- bucking logs off the trail
- lopping or extractigating brush from the trail
- building rock walls
- restoring trail tread
- breaks and lunch (you provide the drinks and food)
